

ANTI STAIN PROTECTIVE FOR JOINTS

Indicated for the protection of cementitious based joints. Protects tile joints from oil and water-based stains and from dirt and grime build up. Prevents the future formation of mildew preventing all moisture and water absorption.

SURFACES

The product is suitable for use on all tiles cementitious coloured and non-coloured joints, in bathrooms, kitchen floors and walls indoors and outdoors.

FEATURES

The product does not change or alter the natural colour of the joints and allows the treated surfaces to be maintained and clean easily.

METHOD OF USE

Remove all dirt, grime, mildew or previous treatments using the product B-GTX (cod. P104). Apply to clean and dry surfaces by spraying the product directly to the area at a 5-10cms distance. Spread uniformly with a brush if required. Allow to dry completely for 12 hours for a complete surface protection. On porous surfaces, if needed, apply a second time before the first application has dried.

ADVANTAGES

The product protects surfaces from the penetration of most water and oil-based substances. Thanks to its "easy clean" formulation, the treated surfaces can be easily maintained and cleaned over time. The product does not leave films or plastic looking layers on the surface. Due to its water-based formulation, the product can be used safely indoors.

ADVICE

Allow 12 hours from application for a complete surface protection. To achieve optimal results, it is imperative that the joints are perfectly clean before applying the treatment. When applied to tile floor joints, wait at least 12 hours before to walk over the floor

CHEMICAL PROPERTIES

APPEARANCE: Liquid

COLOUR: Colourless

ODOUR: Odourless

SOLUBILITY: Soluble in water

PH: 5,80 ± 0,50

COVERAGE FOR LITRE

Approximately 700 - 900 linear metres

(Product coverage may vary depending on type and porosity of material where used)

MADE IN ITALY

ATTENTION:

Carefully read the recommendations printed on the label. Store in the original packaging. Do not dispose of the container in the environment after use, follow the disposal information indicated on the label. Keep out of reach of children. The product has anti-stain properties but does not protect surfaces from acids. Check the actual resistance of the material to the product on a hidden portion of the surface to be treated. When using the product, use suitable PPE and consult the safety data sheet.
