Human toxicological innocuousness of AKEMI® Triple Effect for the treatment of natural and artificial stones with food contact

The product of the manufacturer/supplier:

AKEMI chemisch technische Spezialfabrik GmbH, Lechstr. 28 in D-90451 Nürnberg

with the trade-name AKEMI® Triple Effect comprise a mixture to clean, protect and polish surfaces of natural and artificial stones in contact with food, such that (indirect) human exposure may be possible.

For this product the document „*Humantoxikologische Bewertung von AKEMI® Triple Effect zur Behandlung von Natur- und Kunststeinflächen mit Lebensmittelkontakt*“ (in English: “*Human toxicological evaluation of AKEMI® Triple Effect for treatment of natural and artificial stones in contact with food*”), dated 10/05/2023, has been prepared. Herein it was concluded, that the product AKEMI® Triple Effect is to be regarded as safe when taking into account its intended use for the treatment of the surfaces of natural and artificial stones; a risk for adverse effects to human health does not exist.

This product does fulfil the mandatory safety requirements of Directive 2001/95/EC on general product safety; particularly it is in legal compliance with the (German) Code for food, consumer goods and feed considering provisions of Regulation (EC) No 1935/2004 on materials and articles intended to come into contact with food.
